

# INTERIOR STORM WINDOWS (Winserts)

## Alternatives to Replacing Your Windows

Make your own inexpensive, reusable, clear storm window to stop those frigid drafts and cut your heating bills. No special tools or construction skills needed. This workshop will be offered at the Sunderland Elementary School cafeteria in November or early December, times to be determined at a later date. The workshop will be led by the Sunderland Energy Committee. The fee is approximately \$25/window depending on the size. Registration is required. Please call Laura at 413-687-4018 or email [lwilliam@library.umass.edu](mailto:lwilliam@library.umass.edu). Space is limited so you must register as soon as possible!
